

Multi Cording Device

The Multi Cording Device is the first of its kind in the industry to expand the possibility of embroidering 6 various types of cords.

Feature 1

Obtain a soft and fluffy feeling by using textured cord materials.

Feature 2

You can make both "Cording embroidery" and "Looping embroidery" !

Profitable New Features !

The finish is soft and fluffy, the secret is ...

A soft and fluffy finish is created by the newly developed digitally-controlled presser foot. The height can be controlled according to the thickness/type of materials used. Therefore, your finish will always be to your expectations.

Cording and Looping embroidery

You can make regular Cording embroidery, and also Fluffy Looping embroidery !

Regular embroidery ...

You can run the cord individually, you can also leave the device on the machine while running regular embroidery by simply changing the presser foot.
